Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED OFFICE ACTION

Applicant's amendment in paper No. 12, filed on 27 February 2003 is acknowledged and entered. Following the amendment, claims 3-39 and 41-65 are canceled, claims 1 and 2 are amended, and claim 66 is added.

Currently, claims 1, 2, 40 and 66 are pending, and under consideration.

Withdrawal of Objections and Rejections:

The objection of the specification is withdrawn in view of applicant's amendments.

All objections and rejections of claims 3-5 are moot as the applicant has canceled the claims.

The scope rejection of claims 1, 2 and 40 under 35 U.S.C. 112, first paragraph is withdrawn in view of applicant's amendment and argument.

The rejection of claims 1, 2 and 40 under 35 U.S.C. 112, first paragraph for lack of written description is withdrawn in view of applicant's amendment.

Objections and Rejections under 35 U.S.C. §101 and §112:

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 66 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claim is drawn to a polypeptide dimer, which reads on a product of nature and thus, is unpatentable to applicant. It is suggested that applicant use the language "isolated" or "purified" in connection with the polypeptide to indicate the hand of the inventor. See MPEP 2105.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1646

Claims 1, 2 and 40 remain rejected, and the new claim 66 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, as amended, remains indefinite because it is unclear what "growth factor activity" refers to, and the specification does not define such term. As there are many growth factors having diverse activities, the metes and bounds of the claim, therefore, cannot be determined.

Claim 2 remains indefinite because it is unclear how the polypeptide of the claim can be both SEQ ID NO:4 (residues 239-370 of SEQ ID NO:2) as it depends from claim 1, and residues 247-370, 247-338, or 339-370 of SEQ ID NO:2.

Claim 66 is indefinite because it is unclear whether the polypeptide dimer is homodimer or heterodimer. The metes and bounds of the claim, therefore, cannot be determined.

The remaining claim is rejected for depending from an indefinite claim.

Rejections Over Prior Art:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 and 40 remain rejected under 35 U.S.C. 102(a) as being anticipated by Eriksson et al., WO200027879, for the reasons set forth in the last Office Action, paper No. 10, mailed on 27 August 2002, at page 9.

Applicants argument, filed on 27 February 2003 (paper No. 12) has been fully considered, but is not deemed persuasive for reasons below.

At page 7 of the response, the applicant argues that claim 1 recites SEQ ID NO:4, which is a 132 amino acid polypeptide corresponding to amino acids 239-370 of SEQ ID NO:2 of the present application, and is a piece of, and is not the exact same sequence as SEQ ID NO:6 or 8 of the prior art reference. This argument is not persuasive because the term "comprising" used in claim 1 of the present invention is an open term, indicating possibly additional sequence. As such, the limitation of the present claim 1 encompasses the prior art sequence, and therefore the

Art Unit: 1646

cited sequence anticipates the claims. If the specific fragments are intended in the claim, the language such as "consisting of" is suggested.

Conclusion:

No claim is allowed.

Art Unit: 1646

Advisory Information:

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
